International College of Broadcasting is accredited by the Accrediting Commission of Career Schools and Colleges, which requires the calculation of employment placement rates by program. Those rates are calculated as the percentage of graduates employed during the calculation time period of 150% of the student's program length plus three months. Graduates who are unavailable for placement are removed from the employment placement calculation. Specifically, graduates who fall into one of the categories are removed: death, incarceration, active military

service deployment, the onset of a medical condition that prevents employment, or international students who have returned to their country of origin. The established placement benchmark for this accreditor is 70%. Information on employment is gathered by the placement office through frequent contacts with graduates.
